

KD Series

The Davies Pumps KD model is a rugged cast iron single impeller pump with close coupled motor design for simple and reliable operation. Closed impeller design with powerful single phase motor and 2" ports makes these an ideal wash down or transfer pump where three phase power is not available.

Pump Features

- Cast Iron Housings
- Single impeller
- Robust and reliable
- Maximum liquid temperature 90 degrees
- Flows up to 500lpm
- Pressure up to 33m
