

KP 150-300 2" Series

The Davies Pumps KP model is a rugged cast iron single impeller pump with close coupled motor design for simple and reliable operation. Closed impeller design and 2" ports makes these an ideal pump for rural or industrial applications such as wash down, transfer or chilled water circulation.

Pump Features

- Cast Iron Housings
- Single impeller
- Robust and reliable
- Maximum liquid temperature 90 degrees
- Flows up to 600lpm
- Pressure up to 29m
