

# JEXI JUNIOR SERIES

## Self Priming Jet Pump

The Jexi-Junior Series jet pump from the Areta range have many applications, tank filling from rivers and wells, house supply and system pressure boosting. Can be supplied as auto-controller system for run dry protection or as pressure tank/pressure switch style system.

### Features:

- 304 Stainless steel impeller, seal plate and pump body.
- 410 stainless steel shaft.
- Molded Diffuser/venturi.
- Carbon/ceramic mechanical seal.
- Suction lift up to 7m.
- Made in Taiwan.

JEXI JUNIOR SERIES					
Part No.	HP	kW	PH	Volts	Max Amps
220-JEXIJR-5	0.5	0.37	1	230	2.5
220-JEXIJR-10	1.0	0.75	1	230	5

**JEXI JUNIOR - AUTO CONTROLLER SYSTEMS**

Part No.	Controller
230-JEXIJR-5E	Compact 2
230-JEXIJR-10E	Compact 2

Pressure System supplied with pump, quick connect union and auto controller.

Compact 2 auto controller features:

- Turn on pressure 1.5bar.
- Auto Restart following run dry.

**JEXI JUNIOR - PRESSURE TANK SYSTEMS**

Part No.	Pressure Tank
230-TM-JEXIJR-5	8L
230-TM-JEXIJR-10	18L

Pressure Tank System supplied with pump, PM5-PW pressure switch, pressure gauge, check valve and pressure tank

- Pressure switch cut-in/cut-out pre-set 20-40psi.
- No run dry protection.

**Performance:**
